Toolkit

CSS

HTML Basics

- Structure of the page
- HTML "Elements"
- HTML Tags

```
<!DOCTYPE html>
<html>
<head>
<title>Page Title</title>
</head>
<body>

<h1>My First Heading</h1>
<p>My first paragraph.</p>

</body>
</html>
```

```
<!DOCTYPE html>
<html>
<head>
<title>Page Title</title>
</head>
<body>

<h1>My First Heading</h1>
<p>My first paragraph.</p>

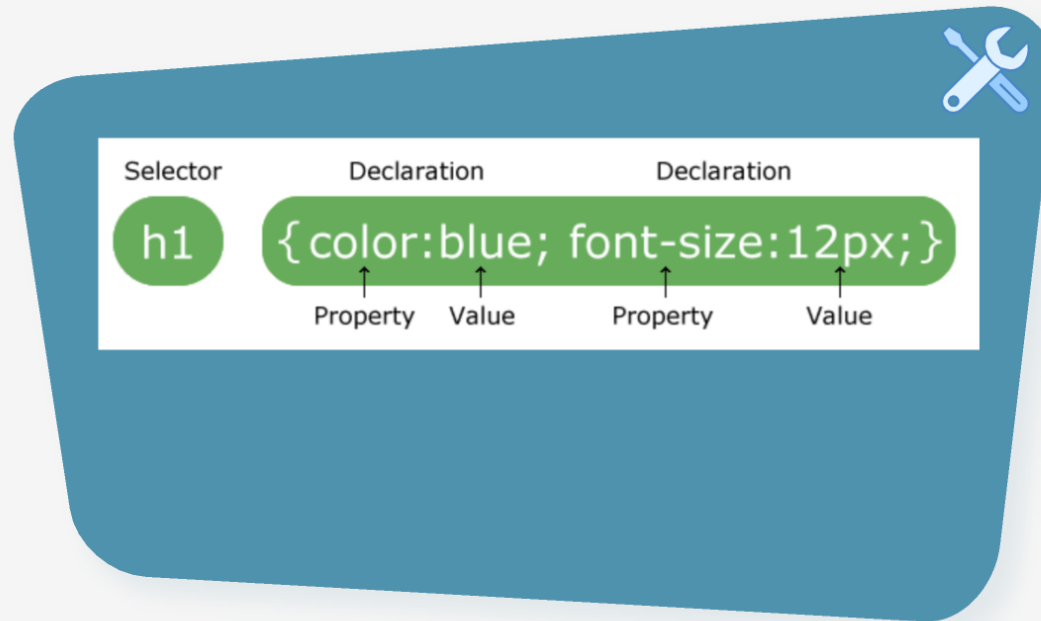

</body>
</html>
```

CSS Basics

- Defines how HTML elements are displayed
- In-line, `<style></style>` tags, or external style sheets
- Selectors

Selector

h1

Declaration

{ color:blue; font-size:12px; }

Declaration

Admin → Docs → Document List

The screenshot shows the 'Documents List' page in an ERP system. The navigation menu includes: SALES, PARTS, PURCHASING, WAREHOUSE, ACCOUNTING, PRODUCTION, ADMIN. The sub-menu for 'DOCS' is open, showing: DOC UPLOADS, PROCESSES, DOCS PENDING APPROVAL, DOCUMENTS LIST, and NOTES LIST. The 'DOCUMENTS LIST' page has search filters for Name, Object Type, Object ID, Status, Public, Protected, and Active. Below the filters is a table with the following data:

Name	Object ID	Object Type	Tags	Revision	Status	Active	Public	Protected	User	Created On

3. Style

The diagram illustrates the transformation of code into a shipping label. On the left, a dark box contains a snippet of code with comments in Spanish, such as "Se genera el código de barras", "Se genera el código de barras", and "Se genera el código de barras". A white arrow points from this code to a white shipping label on the right. The label contains customer information, a barcode, and a QR code.
